we speak e-commerce

The Green team works with overseas agents and global clients and we understand the complexities of e-commerce and FBA-bound cargo. We provide a one-stop shop for e-commerce cargo.

Green handles a wide range of cargo bound for "big box" e-commerce platforms across the US. We also offer direct B2C fulfillment for goods sold online with EDI integration to major shopping carts.

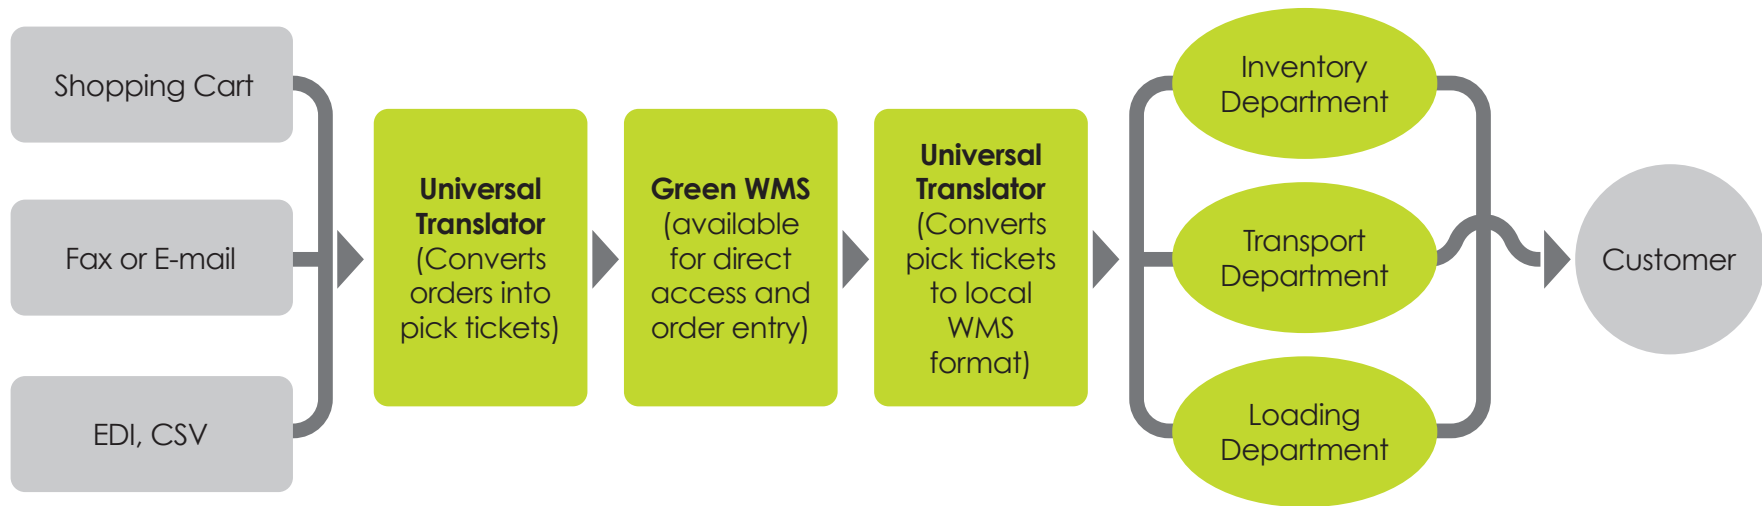

Add-on services allow Green Worldwide to provide complete e-commerce solutions:

- Amazon specialist
- E-commerce project logistics
- E-fulfilment (pick and pack) with Green WMS
- Comprehensive US warehousing solutions
- Domestic delivery utilizing Green TMS
- White glove final mile logistics with Green WGS
- Inventory control and visibility with Green WMS
- Returns management
- Product testing
- Re-working
- Contract courier rates
- Air and sea import and export
- Customs brokerage

Contact us today to discuss an e-commerce solution for your enterprise.
