# we speak third-party logistics and e-commerce

here are just a few examples of recent projects completed for our e-commerce clients

## Consumer Electronics

Working closely with a WCA partner, we designed and implemented a warehousing and fulfillment-by-Amazon delivery solution for Asia inbound and Amazon returned product, using one of our 70,000 sf Los Angeles warehousing locations. Special project for repackaging 50,000 retail units to correct compliance issues.

## Personal Care Products

Retail store fulfillment on just-in-time basis for all goods used in the barber chair side of the business. Also, introduction of all new product lines for the first sixth months of their cycle.

## Furniture

A start-up manufacturer specializing in a bed-in-a-box-concept fulfilled entirely via courier small parcel, even the king size. Shipping from our Miami e-commerce warehouse.

## Retail Floor Coverings

Our e-commerce solutions enhance shopping carts including eBay, Amazon and Big Commerce, using our Miami warehouse to fulfill internet orders seamlessly. Originally selling floor tiles, client is poised to expand into the furniture market.

## Janitorial and Sanitation Products

Commercial scent diffuser manufacturer successfully entering US markets using Green WMS and Green SPX, building market share with a dealer network 100+ strong.

## Hotel/Hospitality

Import, warehousing, pick-and-pack, and nationwide distribution of hotel amenities direct to hotels and to distributors using Green TMS solution.
